

OsteoWeld Quality Policy

At OsteoWeld we are dedicated to transforming the musculoskeletal health of patients through innovation and product design excellence, and to satisfying the needs of our stakeholders. We demonstrate this through:

- Our focus on innovation and expanding the possibilities of how ultrasonic technology can be applied in surgery
- Our commitment to continually evaluating the suitability and improving the effectiveness of the Quality Management System and ensuring compliance with all applicable regulations
- Developing safe and effective products that meet clinical needs
- Providing regular communication and training about our Quality Management System to our employees and stakeholders

The framework for setting quality objectives is defined in the Quality Manual.

The QMS & Regulatory Manager is responsible for communicating the Quality Policy to all persons working for or on behalf of the organization and making it available to the public.
